

Dear Residents of Ramara Township:

Most of you still remember me as the publisher of The Local Web. When on council, I plan to work on a bi-monthly newsletter on township news, to keep Ward 3 informed.

A Casino in our area, and new regulations coming down from higher tier governments have made council business more complicated. One has to be prepared to devote a lot of time to study and research background information. *I semi-retired from the printing business to have the time to do just that.*

As a grandparent, concerned citizen and community-minded business member of Ramara, who will also be looking at retiring here, I can identify with your concerns and interest in the future development of our township and wish to be your representative to keep you informed and bring your concerns back to council.

On a wider scope, I will work hard to be part of a team at promoting our township and inviting commercial enterprises to settle in designated areas in our township to build and maintain a strong tax base.

Sincerely,

WE NEED :

Wheel chair access to our Township Offices.

To support Youth Programs

Library, Soccer, Baseball
active groups within the township to build strong minds and bodies.

To protect Our Lakes and Rivers

Assist our organizations within the township that are working at preserving and rehabilitating our waters.

Address Growth in Designated Areas

To keep our taxes from skyrocketing.

To address speed, safety and conditions of some of our **Roads**

To support Events Organizations

We need to encourage and support events that will promote our township inviting tourists as well as new residents.

***A Vote for Erika Neher.....
is a vote for a councillor who
cares about our future and is ...***

- **Motivated** to work for the good of the community.
- **Capable** of organizing and creating business - like presentations.
- **Accountable** for decisions and action taken by me on your behalf.
- **Committed** - To listen, hear and forward your concerns and follow up on results, as well as keep you informed of public council business.
- **Dependable • Willing to learn**
I have attended council meetings since 1997 to familiarize myself with the process and issues, and promise you can depend on me to work hard on your behalf, study background information, whether that is keeping taxes as close as possible to 0% increase, or learning about the controlled growth issue.
